The flight search engine app

The web app is called kflysearch .it is a flight search for clients using Amadeus flight search api the flights are real time data with a payment system called M-pesa which is very popular in Kenya. The system also detects if that airport choose is international or local. if local it will choose the highest number aircraft carriers in that country where that local airport was chosen. Users must login to checkout out of the system website can be accessed at www.kflysearch.cf

Amazing Travel

We can learn about the world, from academic study. But it never gives us the real experience, only traveling can do this. When you will travel, you can see the real beauty and real scene of a place. People are traveling all across the world for different purposes.
